“W.P. Bate Community School is extremely grateful and excited to partner with North Atlantic Potash, as new business mentors through Care and Share Saskatoon. Bob Fawcett, Community Relations Coordinator with NAP, presented our school with a \$2000 sponsorship cheque to help meet the needs of our students. Bob was happy to receive a piece of student artwork as a gift of appreciation. W.P. Bate Community School is very grateful to partner with Care and Share to build a better community, one kid at a time! With the help of community minded business partners like North Atlantic Potash, we know the smiles on our student’s faces, along with pride and confidence in their achievements, will help build a better future for all. Thank you North Atlantic Potash.”
